

# TURNBUCKLES

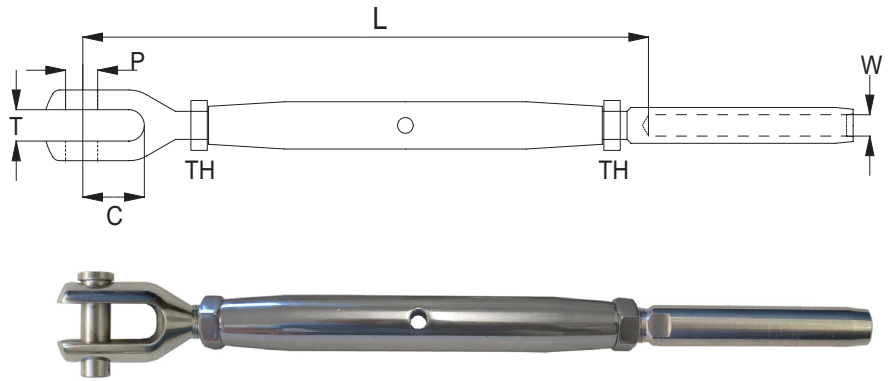

## Closed Body with Stud and Fork

### Benefits

Stainless steel grade 316 closed body with Aluminium Bronze thread inserts for sizes 8mm to 26mm.

Eyes are manufactured to a very high standard using the latest technology in electrical upsetting forging.

All raw materials used to manufacture these parts are certified to EN10204 3.1b.

Inspection certificate BS EN 10204 3.1B available on request (This must be specified at the time of order). High quality finish and excellent polish.

Closed Body Turnbuckle with Fork and Fork
